ASSOCIATED PRESS TELEGRAMS

HAVAS AGENCY

London, 13th.

According to the latest telegrams cholera has broken out in several parts of the United Kingdom. It is thought, however, that the epidemic will be prevented from spreading.

Paris 13th.

It appears from to-day's despatches that the German squadron, recently arrived at Zanzibar, claims the right of possession to that island, and at the same time threatens to employ violence if any resistance be offered.

In political circles this news and the report that the Germans had seized the Carolina Islands in the Pacific has created considerable excitement.

Marseilles, 14th.

During the last twenty four-hours thirty-five fatal cases of cholera have occurred.

Rome, 14th.

The death, at the advanced age of 85 years, is announced of the celebrated doctor Com. Charles Maggiorani, professor in the University and member of the Senate.

PRESS TELEGRAMS.

Madrid, 13th—Thirty five fresh cases of cholera and 19 deaths are reported in this city. In one street alone 15 cases occurred, causing the greatest alarm.

The authorities have taken the severest quarantine measures; all the streets are being disinfected.

Madrid, 12th—The Official Bulletin showed yesterday 4,567 fresh cases and 1,634 deaths.

Madrid, 13th—The Official Bulletin states that within the last 24 hours 6,464 fresh cases and 2,109 deaths have occurred in Spain. These are the highest figures yet reached. The press unanimously appeal to Government and the higher classes to combine their efforts for the relief of the families of the victims.

The King and Queen have sent valuable donations to Saragossa and Granada.

M. Silvela has recovered from an attack of cholera.

Marseilles, 12th—The panic is extraordinary. Emigration continues at the rate of 2,000 people per day. The conduct of the health authorities is severely criticized.

Marseilles, 13th—Yesterday 22 fresh cases of cholera and 12 deaths were reported.

London, 12th—Great preparations are being made in Herat and the neighbouring districts to oppose any advance of the Russians.

Paris, 12th—The *Republica Francaise* states that if the Anglo-Turkish alliance be now made, it is very improbable that the Russians will declare war.

Meshed, 12th—Gen. Komaroff passes frequently between Merv and Pendjeh.

Calcutta, 12th—The English officers find that their leave of absence for a trip to England has been considerably curtailed.

London 12th—Advices from Suakim report great mortality amongst the soldiers.

St. Petersburg 13th—The Russian Ministers near the States of Servia, Roumania, Bulgaria, and Roumelia have been recalled to assist at a conference with the Government, before the Czar starts on his visit to the Emperor of Austria.

Vienna 12th—A line of guards will be placed, at intervals of 50 paces, along the line by which the Czar intends travelling.

London 12th—A member of the Royal Commission appointed to examine the causes of the general depression of trade has been publickly assaulted by a man who accused him of seducing his daughter.

Paris 13th—Advices from Odessa announce the appearance of cholera in that town.

London 13th—General Wolseley has been honored with the title of Viscount.

Madrid 13th—Great excitement has been caused by the rumored German occupation of the Carolina Islands in the Pacific to which Spain has claims.

Rome 13th—It is stated that Government is about to send 10,000 men to Africa.

Lima, 13th—Caceres accuses Iglesias of being the immediate cause of lamentable state of Peru.

Santiago de Chile, 17th—The Aconcagua which sailed on the 8th from Valparaiso will not be able to take a cargo at Montevideo, as she already has a full cargo for Europe.

Montevideo, 14th—Several young Paraguayans in the Escuela de Artes y Oficios have sent a letter of congratulation to Minister Brizuela.

It appears from a statement in the *Nacion* that the Bank contract has not been signed.

News very scarce in political circles.

Rosario, 14th—Five soldiers have been imprisoned for killing a prisoner.

Many complaints are being lodged against the Jefe Politico Ferro.

Two hundred fat bullocks have been sold at $46 m/n.

Santiago del Estero, 14th—Dr Irigoyen has arrived. Over 300 people assembled to meet the distinguished traveller.

ECONOMY.

The Rentas Generales of the Republic have doubled since 1877, yet great as is their growth, the increase of National expenditure has been still greater. That our readers may thoroughly comprehend this all important question, we give the official figures since General Roca entered office in 1880, which prove clearly that nothing has kept pace with the extravagance of the administration, and that the moment has arrived when such enormous expenditure must be cut down.

	1880	1884
Rentas Generales..	36,247,487	37,236,820
	1880	1885
Expenditure.....	19,095,498	42,900,063

Thus the revenue shows an increase of 17 millions whilst the expenditure shows a growth of over 23 millions and but for the grand flare-up about the Pellegrini business we should probably next year spend 45 or over 50 millions, such was the headlong rate at which we were going.

It is indeed a matter of deep study that four years ago, exchange on Europe was nearly 2 per cent premium over par, whilst to-day it is so far below par in the same National money that we refrain from giving the figures. Now it is worthy of note that notwithstanding this desperate fall in exchange, the country has progressed in every branch, in every industry, and in every department in the most unprecedented manner; fully 300,000 new hands have come into the country, and millions and millions of foreign capital. In our recent trip to the colonies of Santa Fé, we saw with our own eyes how they had grown in the last 4 years. 30 kilometres from Santa Fé was the limit of these colonies in 1879, and now the very railway carries you through the ploughed up lands for over one hundred kilometres, and next year these colonies and the railway will run out to Sunchales. In sheep, cattle, maize, wheat, lino, mani &c., the growth has been simply enormous, yet exchange goes down. All our railways have been extended and carried out to distances more than double the original track, yet exchange falls. Whence comes it therefore, we ask, that the country prospers, thrives, and goes ahead, and yet exchange declines. Because, reader, the extravagance of the Government swamped everything. Four millions and a half for education, ten millions for army and navy!! No wonder that the country thrives whilst the Government is hard up. Let us all hope that we are now on the edge of safe and useful reforms, and that next year there will be sufficient revenue surplus to pay for the continuance of our Public works, or is this great talk about economy "all but a dream at the best ?"

THE NATIONAL RAILWAYS.

The good which this Pellegrini business has done will live after us. In all the departments of Government they are busy taking stock and preparing statements for the respective Ministers and Congress, defending, as far as they can defend the expenditure of each department. The task is a hard one, and can never succeed; fully one half of the clerks in the Government employ will be dismissed. There is no other course left, and what the government may refrain from doing Congress will most assuredly carry out.

In response to an enquiry by the Deputies, as to the actual cost of the National Government Railways the Department of Engineers has sent in the following statement, which will be read with deep interest by the creditors of the nation, who have so freely advanced their money for the construction of those works:—

The Department of National Engineers has replied to the following questions put by the Chamber of Deputies through the Minister of the Interior:—

1st. What is the present state of the public works constructed directly by the Government, or for its account? What has been spent on said works, and what remains to be spent to complete them according to contract?

2d. What amount has been spent in building and keeping in repair those State railways that are completed? What was their cost per kilometre, calculating interest, commission, etc., on capital employed and to be employed?

3d. What is the price per kilometre of the lines now building?

The Engineers' Department says it cannot answer the second question as it does not know what interest has been paid on the capital; but the Finance Office and Contaduria can give the figures required. Nevertheless, the cost of the different lines up to 31st December last may be taken as follows:—

Andine: length 767 kilometre, capital $13,678,841.77 cost per kilometre $17,834.21.

Central Norte: length from Cordoba to Tucuman 546 kilometres, capital $11,558,946,21; cost per kilometre $21,170.23.

Extension to Jujuy: length 215 kilometres, capital 6,784,623,30 $, cost per kilometre 31,556,34 $.

Branch to Santiago: length 162 kilometres, capital 2,188,438,68 $, cost per kilometre 13,508,88 $.

Branch to Chumbicha: length 176 kilometres, capital 1,578,006,84 $, cost per kilometre 8,965,94 $.

Primer Entreriano: length 10 kilometres, capital 153,839,73 $, cost per kilometre 15,383,97 $.

Total cost of lines 35,942,686,53 $.

As regards the nett cost per kilometre of the lines building, it can only be calculated accurately when the works are finished and the accounts closed; but according to the plans and estimates, it may be taken as follows:—

FERRO-CARRIL ANDINO	PER KILOMETRE
Villa Mercedes to San Luis..	18,608,49 $
San Luis to Mendoza.....	19,175,74
Mendoza to San Juan.....	19,665,40
Average cost per kilometre..	19,149,87 $

The estimated cost of the three sections, from Villa Mercedes to San Luis passing through La Paz and Mendoza is $ 9,862,037.

For the Central North line and branches, the estimated cost from Tucuman to San Jose de Metan is $ 6,800,758; or $ 37,676 per kilometre. The branch to Santiago $ 1,922,450; or $ 11,856 per kilometre: Branch to Chumbicha from Recreo $ 11,916 per kilometre; Chumbicha to Catamarca $ 19,685; Chumbicha to Rioja $ 13,196 per kilometre. The Department has also furnished other important accessory data to the Chamber.

THE ROYAL SILVER MINES.

Mr. Dorado, the millionaire Bolivian, who has such large properties in this city and such a wide circle of friends in the Plate, has just launched in Paris a new mining company, of which the circular which we give hereunder, supplies full details.

Owing to pressure on our columns we are unable to give our readers the full history of the wondrous mines known as the Silver City of Potosi, situated on an elevated plateau on the Eastern side of the Andes in the Republic of Bolivia, but next week we purpose publishing all about them. These mines gave in the 16th and 17th century the enormous yield of £539,241,977, and in the opinion of skilled mining engineers they can give when properly worked much more than the sum total of what they gave before.

Shares in this new mining company are now being offered in this market, but only a limited number, as they are nearly all placed in Europe, and on the launching of the Company in Paris last June, the following circular was given round:—

Paris, 12 Rue de Prony,

June 1, 1885.

Last year a joint-stock company was organised in London under the title of "The Royal Silver Mines of Potosi, Bolivia, Limited," with a view of working the mines of silver for which the Potosi mountain is celebrated, and which are, moreover, the richest in the world.

Those who, like the undersigned, know the riches of these mines, refused to subscribe to the shares, as the conditions which the founders of the company had proposed had not been enforced. Nevertheless, the company was organized with 3,000 shares on the London market and 3,600 in Bolivia, representing a capital of £66,000 stg., with which capital the Board of Directors did not consider it advisable to proceed to the working of the mines.

The undersigned who, being a Bolivian, knows all the importance of the mines referred to and the incalculable riches they produced under the Spanish Dominion, proposed the following modifications to the Board of Directors:—

Bases for the organization of the joint-stock company known as the "The Royal Silver mines of Potosi, Bolivia, Limited":

I.—The capital of the campany to be £600,000, represented by 30,000 shares of £10 each to be called Series A= £300,000 and 6,000 shares of £50 each to be called Series B=£300,000.

Series A to be all emitted and placed in proportion to the increasing number of subscribers. Shareholders of this series to pay one fourth cash and the remainder according to the decision which the Board of Directors will make in this respect.

Series B shares are destined for the purchase of the right of the miners in the Cerro Potosi, and will be placed according as these purchases are made.

II.—The paid-up capital on Series A will give an interest of 10 c/o, payable out of the first profits. The balance remaining, after said payment to be equally divided between the two series.

III.—The Board of Directors to be authorized to invest up to £100,000 in the purchase of mining interests in the Cerro Potosi and to place the number of Series B necessary to produce this sum.

IV.—For the interests, shares and rights of the Sociedad Real Socavon de Potosi, whose representative is Felix Avelino Aramayo, the sum of £12,000 cash and £100,000 in Series B shares to be paid.

V.—The Board of Directors to comprise six Directors, three of whom must be English and the other three South American gentlemen. Messrs. Story, Maskelyne, (M.P.) Samuel Canning and J. Hucks Gibbs who are at present Directors, are at liberty to remain on the Board.

VI.—The expenditure made by the Syndicate to be accounted for and covered, and not to exceed £7,000.

VII.—No commission, or any other kind of remuneration to be paid to the Syndicate nor to the sellers Messrs. Hegan and Co., who nevertheless, are entitled to act as agents until further orders from the Board.

These modification, have been accepted by the Board of Directors and others concerned, but must be submitted to the consideration of and ratified by the present shareholders at a general meeting in London.

The undersigned is confident in the success of the enterprise, and does not hesitate in recommending it to the public. To this effect the present circular has been published, but, if further details are required, the undersigned will be happy to answer all questions and supply plans, surveys, etc., as drawn up by the engineers specially sent out to examine the Cerro Potosi.

It is thought there will be no difficulty in placing the 30,000 Shares of Series A on the London, Buenos Aires, Chilian and Bolivian markets.

Awaiting your answer etc.

Louis Dorado.

MR. THICKE'S LECTURE.

(Continued.)

What is an artistic standard? Nature, and truth its chief end. The artist's standard is feeling, and his end refined pleasure. He is not bound to adhere strictly to nature like the scientific man, but he may alter the originals at his will, selecting subjects which chime in best with his ideas of artistic effect. We do not look for anatomical exactness when he portrays the human form, though we do not expect him to jar our sense of consistency by a wide departure from the usual proportions of humanity. Without order and method the work of any artist, however clever, would be but a useless mass of knowledge.

One of the principal aims of an artist should be to render his works as practically useful as possible. I should like to see illumination revived as one of the most graceful, decorative arts of the present day. There would be ample opportunity for extending the scope of art generally if this branch were made applicable to dados, friezes, screens, etc., now so much in vogue in private dwelling-houses. But I shall refer to this subject later on.

One important feature in the somewhat capricious attribute termed *refinement* of art attaches more particularly to the sense of sight, and that is the power of protracted enjoyment without fatigue. A coarse effect gained by dwelling upon a sensational subject is intense and pungent, but too exhausting to be kept up; in the same way that a noisy clash of instruments in a musical performance or a tale told with too many marvellous exploits, excites the senses for a moment; but the enjoyment is but temporary, and if repeated nauseates or nullifies the hearer's appreciation.

To remove all the fatiguing accompaniments and thereby tone down the exciting influence, while retaining as much as possible the really pleasurable part, is to refine upon the effect and produce a higher work of art.

The sensation of taste and smell is of short duration and the pleasure also palls very soon, but the eye can remain open to agreeable stimulus for the greatest length of time.

There are of course many differences between artists. The musical artist, whom I do not propose to include in my paper, to night, imitates nothing and is bound by the sole condition of gratifying the ear. A painter chooses his subject from nature, and although he must contrive to yield the pleasures of colour, outline and grouping, he must do so with a certain amount of respect to the object copied. It is not so much that truth is a part of the artistic pleasure as that falsehood is a stumbling block in the way. The various arts of decoration and design are for the most part effusive although occasionally imitative. Architecture is not in any way imitative; the coincidence between the gothic roof and the intermingling foliage of a double row of trees being purely an accident.

Of course one could continue a discourse on art for an indefinite period, for it is a subject that is inexhaustible. But as the application of art in our homes is the immediate subject with which we have to deal this evening, I must proceed to point out in what ways the study of effect can be best proceeded with and how the practice of painting and other manual labor can be more efficiently utilized in making our houses and rooms more comfortable and more pleasing to the eye.

That many homes are made wretched and uncomfortable through want of tact and management, and in too many cases also of order, is a well established but lamentable fact. An untidy mistress who descends to the breakfast table with dishevelled hair and disordered dress is not one likely to keep a house in a proper state of regularity and order, and certainly not to make an artistic home. First of all, therefore, it is essential that one's personal appearance should be studied or else the picture of a pretty home is altogether spoilt. There is art in almost everything we do, and especially does it exist in dressing ourselves. Ladies are the best artists in this respect and in many cases sex a splendid example to the opposite set who are lamentably deficient in the knowledge of how to dress themselves properly. My subject is far too comprehensive to dwelling upon this branch of it, though it would be well if men could be induced to think and consider more about their personal appearance, and not allow themselves to become such eyesores as they often do through indulging in such strange vagaries in the way of dress. Costume plays an important part in art. The poet and prose writer are both compelled to resort to it, to carry their readers back to the age which they describe. But it is as presented to the eye that art in costume becomes indispensable. Although extravagant designs in ladies' toilets are still to be noticed and depreciated, I am inclined to believe that the tendency in modes of dress is decidedly towards simplicity and appropriateness. I mean, of course, in Europe. In B. Aires I have not had sufficient opportunity of studying the prevailing modes or fashions except so far as the male portion of the population is concerned and of them I would prefer rather to be silent. In England, I believe, canvas is much worn by ladies just now, in fact, it is, I am told, quite the fashion. When properly disposed any sort of drapery tends in most cases to exhibit the form, and enhance the characteristics and intensify the attitude whether in action or repose. The simple rule of drapery as a means of furnishing a room, simple of course in principle though by no means always easy in practice, seems to be that it shall never be employed without an object. Each fold should, as it were, betoken its use, but this is not very often to be accomplished.

(To be Continued)

ARGENTINE SALMON.

We invite those worthies who ridicule Senator Zapata's project for the introduction of salmon in our river, to read the following which we have just received by the mail:—

The Fisheries of Canada.—The total value of the fisheries of Canada for the year 1884 may be stated approximately at $17,852,721, exclusive of Manitoba and the North-west Territories, compared with $16,958,192 in 1883. The expenditure of the Canadian Government for the fishery service was $116,531, including $27,585 in connection with fish breeding establishments. There are twelve fish hatcheries in actual operation in Canada—two in Ontario, three in Quebec three in New Brunswick, two in Nova Scotia, one in Prince Edward Island, and one in British Columbia. The total number of young fish of various kinds hatched and distributed in 1884 was 53,143,000 and during the autumn 66,033,000 eggs were laid down. These included salmon trout, speckled trout, white fish, black bass, and pickerel. The preliminary report of the Fisheries of Canada, just presented to Parliament, contains, in addition to the above information, a report upon the representation of the Dominion at the Fisheries Exhibition in 1883.

A GREAT SAFE.

Montevideo, Aug. 13, 1885.

"Safe bind safe find" is an excellent maxim, and one that deserves to be universally adopted. Too frequently confidence is placed in worthless iron structures, which, through defective construction, readily yield to the skill of the professional burglar, or come to grief in fire. "How to choose a safe" is a question not easily decided by the uninitiated; for the buyer, as a rule, is not acquainted with the make of safes, and therefore depends on the reputation of the maker. Nevertheless, every banker and merchant having bullion to protect from thieves and books from fire, must confront the question. We believe that absolute security from both risks is obtainable; and no one, seeing what we saw yesterday in the vault of the Banco Comercial, would attempt to doubt the truth of this assertion. We were invited to inspect a large safe measuring 2½ metres high, x 3½ metres wide, x 3½ metres deep outside. A few additional particulars may be interesting to the commercial public. The body has three courses of metal, and is lined throughout with hardened steel, and is further strengthened by massive bars of wrought iron which are inside, and by bars of wide angle iron, one inch thick, on the outside. The plates in the body are grooved into each other with such perfect accuracy that to wedge them would be utterly impossible. The whole of the safe is fitted with fire-resisting chambers, nearly 4 inches in thickness, which are charged with steam generating composition. The door, which is 2 inches thick at its thinnest point, is a splendid piece of work. A lever handle throws 13 steel bolts into the body, and, in addition, there are powerful wedge guards on 3 sides. The whole are effectually secured by 3 splendid locks, with hardened steel attachments; this ponderous door weighs between 3 and 4 tons, yet it swings to and fro with the greatest ease. The interior of the room has fittings for bullion and books, with 2 smaller safes for the reserve cash. The entire safe weighs 45 tons, and is a perfect model of solidity, strength, and excellent workmanship. It bears the name of the well-known firm of Milner's Safe Co., Ltd., of Liverpool and London, and has been erected here under the superintendence of the Company's Engineer. We learn that Mr. R. F. Whiteside, the Engineer referred to, purposes remaining here for a couple of weeks, so that an opportunity is thus afforded to those who may require safes or strong rooms, small or large, of supplying themselves with these articles.

The Representatives of the Milner Co. in this River are Messrs. Milligan & Williamson, whose agent here, Mr. Charles S. McLean, will, we are sure, be glad to give any further particulars, or to receive any orders with which he may be favoured.

Correspondent.

MEMS FOR LADY READERS.

We find the following in Liverpool papers just received by the mail, and we readily make room for it, in order to break the monotony of eternal political and loan news:—

Liverpool, 11th.

"A curious judgment upon domestic happiness was given in the Lotinga case by the learned judge who sat on the bench during the trial. It will be remembered that a certain life insurance office refused to pay a man's insurance because it was suspected that he had been poisoned. The insurance office was defeated, but it was made very evident during the course of the investigation that Lotinga was a henpecked man. In referring to this the judge said that it by no means followed that because a man was afraid of his wife, therefore the domestic felicity of the pair was not complete. The judge was perfectly right. To have it definitely settled under whose authority one is to live has a quieting and soothing influence on the nerves. A man "knows where he is," so to speak, when his wife has him well in hand; and I have no doubt there are a great many men who would be happier, and also better able to do their work, than they are, if they would cease to strive for mastery, and learn the wholesome lesson of submission to their wives.

It has been stated this week that Patti received a thousand pounds for two concerts at Brighton recently. This seems very liberal remuneration, and so it is, for Patti commands higher prices than any living soprano. Perhaps it will be remembered that when she was in New York, two or three years ago, she gave 40 performances—two a week—and for each one of these she received £880. But, after all, a beautiful voice is a gift; it cannot be acquired or grown, though it may be improved by training, and it has to be paid for like other natural products—according to its rarity.

There is an article in the *Lancet* this week recommending cricket as a game for girls Some one has been saying lately that it is dangerous for girls to play cricket, because they might get a blow on the breast from a cricket ball, which would lead to cancer. To this the editor of the *Lancet* replies that certainly such a mischance is possible, but that it might be reduced to a minimum if girl players would wear a well-padded corset both in the field and at the wicket. He adds that it would be a great advantage if girls were allowed to join in pastimes at present mostly limited to boys, such as swimming, rowing (not boat races), and cricket. The thorough development of the female frame which such exercises would induce would do much to diminish the tendency towards the special diseases which so many women suffer from in after life; while one positive advantage would be gained by the abolition of tight stays and high-heeled boots, which would be impossibilities for young ladies enjoying athletic pursuits even in moderation.

THE SEASON.

Monte, Aug. 11, 1885.

To the Editor of the STANDARD.

Sir,

Your article headed "Season", in Sunday's issue, was, I am glad to say, the truth at last. I am sorry to say that from Lobos to the Monte, and from the Monte to the Salado, Las Flores, Saladillo, etc., the majority of flocks are in such a deplorably scabby and sickly condition that some sheep are barely worth an "epidemia" hide, and they are dying by hundreds. Query—How do those poor fellows feel who have "puestos" rented at the rate of 15,000 m/c? What clear consciences their landlords must have! This state of affairs reminds one of the Highland crofters. They may have heather, but we have paja and galvanised grass. So there is no necessity to go even half way to the Venado Tuerto to hear such sad details. Strange to say, on the estancias which have a heavy stock of cattle, the sheep are in prime condition; and on one estancia here, of half a league wired, though it has a considerable quantity of galvanised grass and paja, and has from 7,000 to 8,000 sheep and 750 head of cattle, the flocks are in splendid condition and can show about 40 per cent. of an increase.

Many years ago, when these camps were open and covered with mares and cattle, the farmers thrived; but since they drove off these the camps have become coarser and have more the appearance of Lincoln lands. It is rather a good idea, growing 10 squares of alfalfa for 1200 sheep, but we all know what 10 squares of wiring would cost and how many men it would take to gather in the alfalfa, even with a mower.

Now will 1200 sheep, at their present value, give sufficient for these expenses?

Apologizing for intruding on your valuable space,

I am, etc.,

Dundonian.

EDITOR'S TABLE.

Again we enter on the epoch of exciting telegrams from Europe: Havas' message last night giving the gloomy news of cholera in England, and the German squadron coming to the front in some outlandish quarter. Our never-to-be-forgotten Code, that has lain so long dormant, may again come into use.

Hurrah for Gran Chaco sugar! Yesterday we received two beautiful sacks of Gran Chaco sugar, from the renowned establishment of D. Manuel Ocampo Samanes. This is the first sugar we have ever seen from the Chaco, and tastes sweeter than Tucuman or Santiago del Estero. If all our wealthy Argentines had the same enterprise as Mr. Ocampo Samanes, the Plate would very soon leave all Australia behind, and come up very close on the Great United States.

What a terrible sell? Some friends who came down from Rio for the Bolsa Ball, in the French packet, are placed quarantine in Montevideo; both Umberto I° and Equateur are quarantined, the first 8, the second 4 days.

General Gelly y Obes, once our Minister of War, leaves to-day for Paraguay to pass the severe finale of the winter. We wish him a pleasant voyage.

As we were going to press last night all town was going to the Ball; every coach in town was engaged and not a ball-fan or pair of gloves or a button to be found in any shop in the city. Oh the ball, the ball and gold going up.

Touching the Polo Match between the Town and Camp, to be played to-day, Saturday, on the B.A.P.C. ground at Flores, a strong movement has been made in favor of the Camp, The betting may now be quoted at 2 to 1 on the Town. This match will, perhaps, be the best that has been seen since Polo was started in this country. Thanks to the Rev. Mr Spilsbury, who has kindly offered the loan of his school forms and chairs, there will be plenty of sitting accommodation for the ladies, who will be able to enjoy the game and then 4 o'clock tea at their ease. After the match, which will commence at 2.30, *heure militaire*, a club game will be played. There is some talk of polo-pony races being arranged at a further date. It is pleasing to note the energy of the executive of this club, who spare no pains to popularise their favorite game.

The races come off to-day at Palermo, but we fear they will not be over attended as most of our Stud friends danced all night till the broad day light, and came home in the tram in the morning.

Another of our old stagers gone. Soon there will be barely left any of the early English settlers of Buenos Ayres. We report the death of Mr. Benjamin Smith aged 89, who came out to this country in the year 1823 to be a clerk to an English house in this city, McGregor & Co. Mr. Smith's son is established in business near the South market.

We are requested to give notice that the Right Revd. Dr. Sterling, Lord Bishop of the Falkland Islands, will preach (D. V.) at Holy Trinity church, Lomas de Zamora, to-morrow (Sunday) at 3 45 p.m.

The benefit to Daniel Latham promises to be a popular success. The advertisement in another column will be read with interest, and Mr. Latham will have reason to feel convinced that he has many well wishers among us. When the Buffon bears him and his company away it will be pleasant for him to remember that his last apperance at home was an evidence of the appreciation not only of his artists but of the public as well.

Our long-lost friend, "Caso Sospechoso," Esq., has turned up, as we expected. He arrived from Marseilles, by the Poitou, and frightened the wits out of every man, woman and child in Montevideo. As usual, the whole thing turned out a mare's nest, and, as our Caledonian subscribers say, there "wa nae mair aboot it.'

If Congress do not take the bull by the horns the reductions in the Budget will be only a farce. The naval officers consulted have recommended a cheeseparing economy of 300,000 Nats. This is worse than a joke, considering the financial fix the country is in. The whole Argentine navy, excepting two or three ships, ought to be laid up in ordinary, and officers and crews paid off. The army ought to be cut down by a half. There is no fear of war, for the right good reason that our neighbours are as hard-up as ourselves. and bound to keep the peace. The Budget will never be reduced to 30 millions unless our bloated army and navy estimates are vigorously handled by Congress. There is such a plethora of officers in both services, that the gold lace on their breasts and shoulders would almost balance the Budget.

"Chucho" is making sad havoc with the employees and navvies on the extension works of the Tucuman Railway. More than half of them are unable to lift a pen or a pickaxe, and the consumption of quinine monthly is something tremendous.

Good heavings! What monstrous extravagance! The new Club in the city of San Luis will cost 500,000 Nats., and the furniture for it 20,000! Perhaps this news is all moonshine, and that the figures should be 50,000 and 2,000.

That played-out joke, the discovery of "carbon de piedra," is again in the San Juan papers. A place called "Pie de Palo," is the "locus in quo." Wooden Head would be a more appropriate name for everybody and everything connected with the bootless search for real "black diamonds" in this country, as there are none.

Colonel Host is the hardest-worked man in the Argentine army. He is off again to the Chaco, to make a road from Resistencia to the province of Salta. A Battalion of Marines is going with him. It is well to get any kind of service, beyond eating their heads off, out of these amphibious warriors, whom we strongly recommend to Congress for Budget-pruning purposes; also the Naval School, another institution that should not be allowed to survive the famous examinations held in it some months ago.

We cordially salute *L'Immigrant*, the new organ of the French Immigration Society. Why have not the British here a similar society? Why? Because John, Pat and Sandy do not pull together as they ought in this foreign land. More shame for the trio.

The Lion and the Bear are preparing for war as fast as they can. We wonder when it will begin. It is to be devoutly hoped that the Radicals will not turn out Lord Salisbury at the coming elections, just as he seems to be putting foreign affairs to right, and France and Russia in a back seat.

Sr. Barreto, a hopeless scamp, who has been sixteen times in jail, for every offence from pitch-and-toss to manslaughter, has petitioned President Roca to let him out, as his wife cannot do without him. It is probable that this is the very thing she can do? Mr. B. had better remain where he is.

A "Sport" is now being organised on every mortal thing and event of private life: Lotteries, races, marriages, public appointments, etc. The latest proposal we have heard is to hold "remates" on the race for the Presidency. The politicians would bet and buy like thunder at such a "remate."

There was some more *Pall-Mall* news in the cablegrams yesterday. Heavy swell thrashed in the streets of London by a girl's indignant father.

All news from Chubut is good. The following is the new Chubut Municipality:—Edward J. Williams, C.E., Edward Jones, D.M., John S. Williams, Evan Roberts, Thomas S. Williams, David Lloyd Jones, Justices of the Peace.

The wires say that the Portuguese Consul in Rio and his Chancellor of the Exchequer are in hot water for robbing their own Consulate.

More fat in the fire! Cholera in Odessa, and Bismarck has seized the Carolino Islands from poor little Spain. What will the Dons say to this? The man of blood and iron wont care very much.

Friendly.—One opera-singer said to another, "My daughter has inherited my voice." "Oh!" said the other, with the most innocent air, "that is the explanation then! I have been wondering what had become of it."

Our countrymen at Chuput gave a grand jollification last month to celebrate the founding of the colony. Governor Fontana made a speech in Spanish, but promised to rub up his Welsh for next year's blow-out. We are sorry to hear that they are getting up a cemetery at Chuput. We thought Welshmen never, or hardly ever died; at least Chuput Welshmen.

A telegram from the capital of Chile yesterday announcing that it was roaring hot there made everybody stare. The Clerk of the Weather must be "off his head." Only the day before the news was that the ice, snow and fogs in the Cordillera were quite unprecedented. The weather was milder here yesterday. Rain seems to be at hand.

Oh! Gold 106 per cent in poor Chile! Let our Congress take solemn warning by this and prune the Budget down remorselessly, otherwise the same Blue Ruin that has overtaken 'nuestra hermana' will overtake us.

Congress is wasting time bothering over the calling out of the National Guard in Mendoza, an illegal act long past, and which may be consigned to oblivion.

At a Scotch election one of the candidates declared that he was for nothing but tried Reformers, and that he was a tried Reformer himself. "Yes," said a voice from the crowd, 'and if the jury that tried you had not been a pack of scoundrels like yourself you'd have been settling kangaroos at Sydney instead of talking treason here."

A New York paper says:—"The fame of Florida as the place to make fortunes in has reached London, and a colony of fifty families of fruit-growers and market gardeners are now preparing to immigrate to St. Lucie, Fla., in November. It is expected that their skill and knowledge of horticulture will insure them great success."

The world is governed by three things—wisdom, authority, and appearance. Wisdom for thoughtful people, authority for rough people, and appearance for the great mass of superficial people who can look only at the outside.

It is the habitual thought that frames itself into our life. It affects us even more than our intimate social relations do. Our confidential friends have not much to do in shaping our lives as thoughts have which we harbour.

NOTICE.

Parents and Guardians intending to enrol children at this School, are requested to do so AT ONCE; as no more DAY-PUPILS can be received for this Session AFTER THE END OF THIS MONTH nor any more BOARDERS after the few remaining vacancies are filled up, the chool being already full.

Teaching-Staff

The Staff, which is now completed, consists of the following; and, as will be seen by the qualifications appended is, perhaps the best working-staff to be found in any private school, Native or Foreign, in the Argentine Republic.

I—Rector, A Watson Hutton, M.A., F.E.I.S. Master of Arts ("Honours" in Philosophy, Edinburgh University); Fellow of the Educational Institute of Scotland, First Prize Essayist (Educational Subjects) Edinburgh University, Session 1879-80; and, for more than eight years one of the Masters of George Watson' College, Edinburgh.

II—Lady-Superintendent, Mrs. Hutton, Government Certificated Teacher; 'Queen's Scholar' of the Normal Training College, Edinburgh; and for more than seven years Chief Lady-Teacher in George Watson's College, Edinburgh.

III—Spanish, French &c. Master, M. Edmund Reydams, "Gradué en Lettres," Brussels University.

IV—Elementary Mistress and General Assistant, Miss E C Waters, Government Certificated Teacher, for over eight years one of the Teachers in George Heriot's Out-door Schools Edinburgh; and lately in Viscountess Keith's School, Kincardine-on-Forth.

V—Music Teacher, Miss M A Russell, lately of the Ladies' College, Edinburgh, where for the last ten years she has been teaching the Piano and the Harmonium in co-operation with Professor F W Bridgman, the leading Music Master in Scotland.

VI—Drill Sergeant and Gymnastic Master, Mr Wm. G. Water, lately of the First Edinburgh Rifles, and Cowan's Gymnasium, Edinburgh.

Prospectuses with full particulars on application.

EDITOR'S TABLE

(Continued from 1st page)

The *Prensa*, which is a specialist in nautical abuses, gives a truly lamentable account of the condition of the National gunboat Republica, which is in such a rotten condition that she may go to Davy Jones's locker at any moment. We suppose other ships of the navy are just as bad. And this is the sort of thing for which the country pays the cloud of be-laced officers and officials that eat up the Budget!

A morning colleague tells a queer story about an estanciero from Pergamino, who went out to Palermo the other morning to fight a duel, but, having taken a policeman into his confidence, was summarily locked up.

The 'vecinos' of that charming spot Almagro are very wrath with the Lord Mayor because he won't repair a few streets for them. We really think his Lordship ought to oblige them.

More nonsense and extravagance. Three cannons are about to be placed on board the National tug-boat Azopardo. This is the peculiar way in which naval retrenchment is understood in the War Office. Why throw away even three guns on a vessel that has no earthly use for them? "Vista no mas."

Dr Wilde, the talented Minister of Education, was not very well yesterday, and the Government Palace had to do without him. Nothing serious.

The first tramway in La Plata is inaugurated to-day. The concessionaire, Mr Gimenez, wanted to give a spree, but Governor D'Amico would not hear of it, as H.E. considers the times far too hard for even bread and cheese and small beer; and therefore champagne and paté de fat liver are not to be mentioned to ears economical. It's quite clear that Rabelais' "mauvais quart d'heure," has come for the whole country, when even a bite at a tram inauguration is too much expense. So best; for the best.

In addition to the Irish duel at Palermo the other morning, the police also interfered with two Italians from Rosario (in the editorial line, we believe) who were about to perform the same farce.

The papers announce that a German doctor in Nueva Palmira has left that town for Rio with a diamond worth 30,000 pats in his pocket. The doctor bought the gem in Brazil years ago, when he was rich; he is now down in the world, and has gone to Rio to sell the stone and pay his debts. Honest man.

There will be very grand ceremonies in San Salvador church to-morrow, and the eloquent Father Jordan will preach.

The papers say that Colonel Czetz is drawing up plans for a complete system of fortification on the coasts and frontiers of the republic. This is the same old story again. Where is the money to come from? "D—l may care," will no doubt be the reply of our far-seeing War Department that spent a million on Krupp guns without knowing or caring what was to be done with them.

There is some bright news about marble quarries from distant Salta where a gallant Colonel is said to be making a fortune out of his 'canteras.' Distance always lends enchantment to this kind of news from the far Interior.

The police have caught the man who stole Mrs Hargreaves's 1200 nats in such a mysterious manner the other night. The thief is her own 'cobrador,' an obese little Gallego named Garcia. The two servant girls were also in the plot. Garcia being a kind of Don Juan, and having 'carried on' with both of them for some time. The thief gave up all the money, which was restored to the old dame. The police merit every praise for their great activity in this matter.

The Chivilcoy police had a battle royal the other day with a lot of banditti who were making off with a stolen herd of pigs. After a desperate encounter in which several pigs were killed, the bandits ran away, and live to steal pigs another day.

The rival river companies have come to the resolution that the Apolo and Saturno are to run no more races, and are to start on different days. Good! Very good!

Here's a chance for some enterprising young men. The Bahia Blanca Town Council have offered gratis on fee simple for ever a large site in the town to whoever will start a meat-freezing establishment on it. The offer is tempting. Lots of cattle buyers from Chile are now knocking about Bahia Blanca. A few cattle stealers are also reported about the Colorado; and between buyers and stealers the cattle trade is looking less wheezy than it has done for some time past.

The latest case of singularity of conduct recorded is that of a man who dyed for the benefit of his hairs.

Everybody says that the bitterly cold weather is due to the temperature in the Cordillera, where the oldest eagles and condors have never seen such snow before. Last week, for 48 hours, day could not be distinguished from night in the vast Andes, such was the fog that hung over them.

The Bragado family poisoning case is not cleared up yet. Nobody knows whether it was the 'queso de chancho' or a 'mano criminal' that did it. The only victim was the mother-in-law.

Dolores has been shaken up, as far as any camp town can be shaken up, by the discovery of the remains of a man neatly cut up and packed in a Martell brandy box. The police have had to go back 2½ years to get a clue, but believe they have one.

Mark Pattison once said that a small house is no excuse for absence of books, inasmuch as a set of shelves 13 feet by ten, and 6 inches deep, will accommodate nearly a thousand octavos. A man making a thousand a year, who spends less than a pound a week on books, ought to be ashamed of himself.

Here's a nice paragraph for our numerous North American friends in the tooth line:—

"The use of artificial teeth is not so modern as is generally believed. Cosmos states in the museum of Corneto, on the coast of Italy, there are two curious specimens of artificial teeth found in Etruscan tombs probably dating to four or five centuries before our era. These graves contained the bodies of two young girls. On the jaw of one is still to be seen two incisors fixed to their neighbours by small gold rings; in the other the rings remained, but the artificial teeth had fallen out. The teeth, carefully cut, had evidently been taken from the mouth of some large animal."

Metallurgists should note this.—Iron is decidedly the most ironical of metals, for it is very often a railing.

"Can you tell me, Billy, how it is that the chanticleer always keeps his feathers so sleek and smooth?" "No." "Well, I'll tell you, He always carries his comb with him."

ROSSETTER'S
HAIR
RESTORER
This preparation, which is rapidly superseding the dangerous and poisonous compounds hitherto used as applications for the Hair, has been highly recommended by the Medical Faculty, on account of its harmless nature and gradual but invariably efficacy.
It differs from all other articles which have been hitherto offered in not being a dye to bring all heads of Hair to one uniform colour.
ROSSETTER'S
Hair Restorer
Absolutely Reproduces the Original Colour of
THE HAIR
WHATEVER THAT MAY HAVE BEEN WHETHER
AUBURN, CHESNUT, BROWN, OR JET BLACK.
It possesses, moreover, the property of removing Dandriff and other impurities from the Head, and prevents the Hair from falling off. Although it contains no oil, it imparts to the Hair the peculiar lustre and hue of youth, promoting and strengthening its growth.
The sale of this remarkable preparation is increasing rapidly, and it only requires to be known to be extensively used.
Sold by all respectable Chemists, Hair-dressers, &c., and
Wholesale and Retail at the following Depositi:
G. A. Cranwell,
Drug Merchants and Dispensing Chemists.

Eduardo Kenny

SALTO.

e 19 a4 10

A LOS HACENDADOS

Se arrienda con contrato de cinco años un Establecimiento de Campo, situado en la Provincia de Santa Fé, á once leguas al Sur del Rosario, sobre la costa del Arroyo del Sauce; la superficie del campo es: de dos mil quinientas cuadras cuadradas y estando alambrado entrando en este una legua de costa de arroyo, siendo el campo de superior calidad, tiene una gran parte de pasto tierno inmejorable donde se pueden tener con olgura treinta mil ovejas y en el fondo pastos mestizos buenos para hacienda vacuna.

Este establecimiento tiene una casa para familia y piezas para capataz, peones, corrales, jagueles y cinco puestos de material y demas útiles.

La cantidad de hacienda que existe en este campo es: tres mil doscientas vacas, diez mil ovejas clase buena, cuatrocientas yeguas y en este cantidad entran sesenta caballos; todas estas haciendas se arrendaran con el campo, dando una propiedad en hipotecas de cincuenta mil patacones, para poder garantir estos intereses que se entregaran bajo un inventario. La propiedad que se hipoteque tiene que estar en la misma provincia donde estan estos intereses.

Si en caso al interesado no le conviene con las haciendas arrendadas, se las podran vender y arrendar solamente el campo.

NOTICE.

(0)

We beg to advise the public and our clients in particular that, having terminated the liquidation of the business, two of the partners having retired, we have this day reopened our several places of business, viz:

Calle de Moreno 88 to 96

Calle de Mexico 2 to 6

Calle Pedro de Mendoza 254 to 265

Boca del Riachuelo

In addition, we would make known to all whom it may concern, that the sole representatives of the old firm in Great Britain, are Messrs. Alexander Doughty & Co of Liverpool, who alone hold our authority to act upon our behalf.

In making known to the public that we have reopened our various houses of business, we have much pleasure in stating that any orders with which we may be honoured will have all and every attention, and will be filled with the least possible delay.

Tomas Drysdale & Jo.

Moreno 88 to 96

48 a8 25

COMMERCIAL NOTICE.

(0)

We beg to advise the public that the Firm, formerly existing in this market, composed of the partners Thomas, John and Joseph Drysdale and trading under the name of Thomas Drysdale & Co has dissolved partnership and liquidated all interests connected with their business in conformity with the deed of dissolution of partnership drawn up by Don Andres Terry in his office Calle Bolivar No. 5.

The public are likewise hereby informed that all accounts unpaid in favour of the former Firm, since liquidated, have been apportioned and adjudged to each partner of the late firm, in accordance with the balance sheet in possession of each partner and as detailed in the above-mentioned deed.

Juan Drysdale

Jose Drysdale.

74 a1o s1o

AVISO AL PUBLICO.

Prevenimos al publico que la Sociedad existente en esta plaza, compuesto de los Socios Tomas, Juan y Jose Drysdale, que giraba bajo la razon social de Tomas Drysdale & Cia., se ha desuelto y liquidado segun el contrato otorgado en el dia Seis de Agosto de 1885, en la Escribania de Don Andres Terry, Calle Bolivar No. 5.

Prevenimos tambien que las cuentas a cobrar en favor de la Sociedad liquidada, se han adjudicada a cada socio de la estinguida Sociedad Tomas Drysdale & Cia. segun el balance que existe en poder de cada socio, y detalle de la misma escritura de disolucion citada.

Juan Drysdale,

Jose Drysdale.

e75 a10 s10

OTRO.

Habiendo separado los Sres. Don Juan y Don Jose Drysdale de la razon social de Tomas Drysdale & Cia., se avisa al publico que han establecido una casa nueva en la Calle Peru 236 y 238, y en la Boca del Riachuelo, Calle Pedro Mendoza 267-281, en el mismo ramo de Corralon de fierros, maderas y ferreteria. La casa nueva girara en esta plaza bajo el nombre de

Juan y Jose Drysdale y Cia.

En Londres y Liverpool Juan y Jose Drysdale y Cia.

En Nueva York, John Dunn.

Se previene al publico que la marca "Guanaco" es la propiedad exclusiva de los abajos firmados, y que son los unicos importadores autorizados de las Maquinas Segadoras y Atadores de Walter A. Wood y Cia., como tambien de las Trilladoras y Motores de Clayton y Shuttleworth de Lincoln. Juan y Jose Drysdale y Cia.

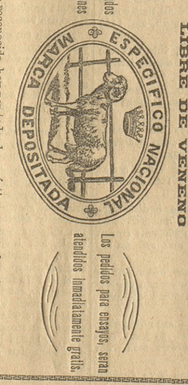
ESPECIFICO NACIONAL

PARA LA

CURA RADICAL DE LA SARNA EN LA ESPECIE OVINA

LIBRE DE VENENO



Pidase y cerciórese sus resultados serán sus mejores recomendaciones

La glycerina siendo reconocida hoy por todos los prácticos como el mejor de los tópicos para la composicion de los baños, algunos comerciantes vidriosos de su buena fé, ofrecen á nuestros estancieros con el fin de suplantar el Especifico de Glycerina, una mistura que, lo afirmamos sin temor de ser desmentidos, no es otra cosa que un mejunje de ácido carbólico impuro, y de materias inertes.

Los especificos con la base de glycerina, son como lo dicen los avisos y prospectos de esos señores comerciantes, los mejores curativos de la sarna, como gusanos, larvas, piojillo, etc., etc., en los animales de la especie ovina.

Por lo tanto pedir en las Casas de esos señores podemos garantir que nuestro especifico es el mejor para la Sarna, Sulfo-glicérico cuya base está garantida por 70 o/o de glycerina, pesando 28 grados Baumé.

Para evitar todo error, al pedir nuestro especifico, exijir que los sobres lleven nuestra marca registrada.

Los pedidos para campos, serán atendidos inmediatamente gratis.

ON 'CHANGE

August 14th, 1885

Gold	44.50 o/o prem.
Cedulas E	80
Cedulas G	88
National Bank Shares	148

The market opened this morning under a cloud, and every rumour current was unfavorable. The same strong buyers of gold continue buying, and we think we noticed the ranks of the buyers strengthened by new parties. The wave of opinion has so much changed since this time last month that it is impossible to offer any view whatever on the future. But in the high banking and commercial circles there is a deep feeling of resentment against Dr. Pacheco, Minister of Hacienda, who is blamed for the sudden turn the market has taken; all the news published in the *Nacion* and *Tribuna Nacional* of the loan being done, of the General Bono being prepared to be delivered to the Bank, has proved false. Trusting to the news, nearly all the large holders of specie sold out. Merchants and bankers feel that they were deceived, and it will take some time to remove that impression. Some very strong parties are now buying back their gold and at a heavy loss, and their reasons for securing gold are chiefly based on the very bad state of affairs in the camp, cattle and sheep dying everywhere, European produce markets very bad, and the prospects of the season rendered still worse by the alarming telegrams of cholera. So extraordinary, however, is this market, and so subject to violent changes, that in a day everything may change and the large buyers of gold turn round and sell at a profit, still the impression to-day is that gold is going fast to 150, and as many said on 'Change this afternoon "quien sabe" if it will stop there.

The cash gold sales amounted to 288,516; opening at 143.50 and closing at 144.50, and ten minutes after the closing of the ring some lots were sold at 145, and few sellers at that rate. For the end of the month 580,000 sold, opening at 144 and closing at 144.50; for October 31st 20,000 at 142 to 141.50. For the end of the year 40,000 sold at 140. Total sales at the ring, 1,303,510.

Cedulas E one sale at 80. The new Series G coming very fast on the market, 27,000 sold for end of month at 88, and 3,000 for to-morrow at 88.

It was announced on 'Change that the great political Cordovese question is at last settled; Mr. Olmos, estanciero of Rio IV, will be the new Governor, and Dr. Tagle his Minister. Those well up in Argentine politics will know the meaning of all this.

Exchange begins to look more drooping than ever; some large takers, they say, are in the market, and in the opinion of the bankers gold will be shipped largely.

Mr Robert M Ramsay, formerly of the leading English house of Bates Stokes & Co., has opened offices at 90 Calle San Martin, and is the agent in Buenos Ayres for the Alliance Life and Fire Assurance Co., one of the greatest and largest of our English Insurance Cos., with a subscribed capital of five millions sterl. and one of the strongest boards of Directors in all England. We have no doubt that with his great connection and agent for so splendid a Company, Mr Ramsay will do a very large business in this market.

The fine Boulder Bros. steamer Meath is now loading frozen mutton in the Boca, and will soon be despatched. We hope Captain Ormiston, when he finishes loading, will favor us with his views on loading in the Boca; formerly the Meath and sister steamers loaded in the outer roads.

Notwithstanding the splendid prices which were paid yesterday for the American rams, we hear the business leaves no profit; let us hope that the next importation will pay better.

Mr C F Woodgate, who has arrived down from Sunchales, was welcomed; he says that in 18 months the railway will be out there, all the land for the line is now bought up, and all Santa Fé lands thereabouts are in strong demand.

We publish in our leading columns particulars of a great Silver Mining Company, launched in Paris by Mr Dorado, who is so well known here. The mines are in Bolivia, and are of untold richness. A few shares have been apportioned for this market. Mr Vega is the party to apply to.

It is impossible to estimate the amount of money spent in the shops within the last few days on account of the Bolsa ball to-night; suffice it to-day that all the fans, gloves, buttons and dancing shoes have been so bought up that there is nothing left. Possibly in no other country in the world are people so free with their money for such articles as in this. We should say that one million of Nat. dollars at the very least has been scattered by this ball.

Discount brokers report gold very scarce but paper superabundant, and to be had everywhere. It is said on 'Change that it having come to the knowledge of the market, that an increase of the emission on a small scale is intended by Congress, the whole market resists it and to render the emission of a single Nat. Dollar impossible, gold is carried to a high point.

At afternoon there was much excitement on 'Change caused by the news in the *Diario* that the Minister of Hacienda had passed notes to the Presidents of the National and Provincial Banks, asking them if their banks required more emission. This coming so soon on Dr Pacheco's statement, but a few days ago that the Government did not contemplate any further emission caused a great shock to the market; still the premium on gold did not advance as much as many anticipated. Fully 500,000 pats bought and sold in the liquidation at 45, 45½, 45.30, for cash and end of month, and finally buyers coming very strong, prices closed firm at 45½, few sellers to be had under 46. Strange to say prices for September advanced still higher and large purchases made at 44½.

Everyone on 'Change discussed the news. They say that both banks will be allowed emission to 40 millions each, which, of course, will increase the issue some 25 millions, and they say that the Nat. Bank will lend the Government 10 millions to go on with the public works. Some strong outsiders entered the market this evening and bought all that could be had at 145½ for the end of month, and 144½ for September.

To-morrow being a holiday, this was the same as Saturday on 'Change, and the barraqueros' tables were thronged.

Captain Shand, of Entre Rios, was welcomed on 'Change; he reports great drought up there and cattle dying.

A farmer from the West says that there is much more grass now than this time last year, yet the sheep are dying in all parts.

The steamer Para is loading a full cereal cargo at San Lorenzo; sails on 18th direct for Liverpool.

The ss. Hildergard, same line, is discharging at the Gas Mole in Rosario, and will come down to the Boca to take in 200 tons frozen mutton to complete cargo, and sail on 1st September.

The Houston line of steamers, according to telegrams received to-day, now start a weekly line of steamers to the Plate, instead of fortnightly.

Heavy shipments of cereals are now going on for Liverpool, much more so than last year. Freights, 18s. for cereals from San Lorenzo.

The National Bank Directors have decided that the remaining calls on the new shares be paid as follows:—

From 1st to 5th September
From 1st to 5th December
From 1st to 5th March 1886
From 1st to 5th June 1886

Last night, with infinite eclat, the Casino de la Bolsa in Calle Piedad was opened. We return our best thanks for invitation, but owing to the ball, &c we found it impossible to attend. We wish the worthy proprietor the best success.

The new Bolsa will be opened to Bolsa business about the first week of September. The Café on the premises has been rented at the enormous figure of $500 m/n per month.

With great pleasure we state that the first frozen mutton cargo from Sansinena factory arrived home in splendid condition and sold well, ex-Hesperides. The second cargo, no advices as yet.

The s.s. Neckar arrives up to-morrow and leaves on Sunday for West Coast calling at Port Stanley, Falkland Islands.

With pleasure we announce that Mr Williamson is much better.

At the Plaza Once the following business reported:—

98 waggons with produce arrived.
The arrivals were:—
1,350 doz. sheepskins
296 lios corderitos
508 cow hides
50 becerros
67 potro hides
18 bordalesas tallow
80 @ hair
8 pipes potro oil
455 bags flour
327 bags wheat

639 camp at 220, 212, 205
300 matadero at 200, 195, 188
Sheepskins—
Per doz. at 22-20 17, 14-12½ls. tb
Matadero, 21
Total, 1,300 doz.
Corderitos, 2,850 doz. at $19, 18, 16
Horse Hides—40 at 65, 62
Hair—60 @ at 160, 158
Tallow—92 bordalesas, 47, 45½, 40
Potro Oil—14 pipes at 47
Maize—500 fanegas morocho in grain at 48, Hay—74 bales at $16, 10 m/n per ton.

At the South Market the following business done:—

90 waggons with produce arrived.
The arrivals were:—
500 @ of wool
2,000 doz. sheepskins
1,500 doz. corderitos
600 cow hides
200 potro hides
300 @ hair
50 bordalesas tallow
600 lb nutria
100 bags wheat
5,000 bricks

and many other produce.

At Barracas al Sud arrived—
993 capones

and much other produce.

Cow hides obtained high prices; sheepskins, potro hides, hair and cereals firm.

The sales were:—
Wool—
No sales.
Cow Hides—
335 camp at 226, 223, 218, 215, 205
200 matadero at 205
50 nonatos at 180
Sheepskins—
Per doz. sup. at 24-22, 17-15, 12½ rls.
Total, 1,850 doz.
Corderitos, 500 doz., $21
Horse Hides—22 at 72, 70
Hair—110 @ at 170
Nutria 300 lb at 6½

There is most important frozen-meat news from Entre Rios. The well-known Paris banking house Demachy et Seijelieres has bought the "Uruguay" freezing factory in Concordia, and named Mr. Emile Poret to manage it. When he took charge the place was all at sixes and sevens, but he has set matters to rights in a few days, and now the factory is in full work, and the cost of turning out the meat has been reduced 30 o/o. The meat is made specially for the consumption of the French army; Messrs. Portalis Brothers, Cazbonnier & Co., of this market, are the financial agents of the company here. The factory can kill and freeze 500 steers daily, as the machinery is of the most improved kind. The engines are of 180 horse power, made by Munier & Co. of Lille. Over 500 men are employed; and $50,000 m/n are disbursed monthly, chiefly in the neighbourhood. The workmen are of all nationalities, English, French, Germans, Poles, Russians, Spaniards, Italians, Austrians, Brazilians, Argentines. The handiwork is all done by the Europeans, and the others do the rough labour. It is now two months since Monsieur Poret took charge, and the monthly killing is about 12,000 head of cattle, which means $150,000 m/n spent in the department of Concordia. The factory is on the bank of the Uruguay, alongside the well-known Concordia saladero.

Minister Achaval, in his report just published for the Provincial Legislature of Buenos Ayres, gives the following interesting figures of the Western Railway and also of the Buenos Ayres Great Southern Railway:—

Great Southern Railway—
Capital, $25,216,666 m/n.
Length, 1,025 kil.; in construction 311 kil.
Stations, 64
Locomotives, 65
First-class waggons, 69, which can carry 2,506 passengers.
Freight-waggons, 1,852
Employees in administration, 121
Other employees, 204
Carriage of produce—
Dirty and washed wools, 63,887,370 kilograms.
Sheepskins, 13,868,340 do
Cow and potro hides, 2,037,970 do
Maize in cob and in grain, 10,101,430 do
Wheat, barley and linseed, 18,963,050 do

Western Railway—
Capital, 18,330,187 m/n.
Length, 799 kil.
Stations, 68
Locomotives, 90
First-class waggons, 62, which can carry 2,626 passengers.
Freight-waggons, 2,646
Employees in administration, 80
Other employees, 175
Carriage of produce—
Dirty and washed wools, 62,499,090 kilograms.
Sheepskins, 9,396,745 do
Cow and potro hides, 2,418,732 do
Maize in cob and in grain, 19,359,553 do
Wheat, barley and linseed, 92,243,240 do
Gross total of produce by both railways, 2,934,779,430 kilograms.

Rates of exchange in Montevideo ruled yesterday as follows:—

	Bank.	Commercial.
On London	50-3d	50½-⅝
On France	fs.5.30	fs.5.32-33
On Rio Janeiro	13:100-150 rs.p £ nom.	
On Buenos Ayres	at par in gold.	

Gold landed in Montevideo:—

By steamer Apolo—	
To E Gorostiza	$1,097.82
Garcia & Rivera	812.77
Vecino & Bordabehere	400
A Chiarino	1,000
B Tejada	1,000
By steamer Rio Parana—	
To B Tejada	$1,200
L Bonomi & Co.	1,500
F Vidiella	2,825
Garcia & Rivera	750
By steamer San Martin—	
To Galli & Co.	$3,000
Adolfo Rabe	318
J J Irisarri	300
By steamer Rio de la Plata—	
To F R Gomez	$300.58
Casenave	150

The following sales for export were effected in Montevideo:—

8,000 @ of good wool, from Centro, at 26 reales per @.

800 saladero novillo hides, 68 lb, at 70 rls.

The new process of sugar making discovered by Frobach, of Berlin, if it proves equal to all that is claimed for it, will completely revolutionize the sugar trade. For years it has been conceded that the present method of extracting the sugar from the cane is defective and expensive. The new process dispenses altogether with crushing and pressing. The cane being cut into strips, the water is first extracted by alcoholic vapor, the saccharine being left in the cane. This is then treated with liquid alcohol. It is asserted that this extracts all the saccharine. Afterwards the sugar is extracted from the alcohol by being filtered through lime and chalk. If this process proves successful it will at once add a third to the present production of cane sugar or at least 1,500,000 tons.

English emigration.—Thus far during this year the emigration from the United Kingdom has been considerably less than it was a year ago. In the first five months the departures amounted to 86,504, which is 19 o/o less than that of the corresponding period for 1884. Nearly 70 o/o of the total number came to the U. States; and an analysis of the figures show that proportionately the decrease of emigrants to our country has been less than that to the Australian countries.

The Manchester *Textile Reader* is authority for the following stock of sheep in Germany: The diminution of the stock of sheep in the principal sheep-raising countries of Europe, generally attributed to increased imports of the cheaper Australian, Cape, and La Plata wools, has been attracting attention for some years. According to official statistics, the stock of sheep in all Germany fell off from 1861 to 1873 from 28,000,000 head to scarcely 25,000,000, and in the year 1883 it had become reduced to a little over 19,000,000, a total fall of 32 o/o in 22 years. Taking Saxony alone, the stock of sheep was 371,089 head in 1861, 266,833 in 1873, and 149,037 in 1883, or a reduction of about 60 o/o in the same period.
